要 約 文

I. 題 目

海洋情報資料 開發研究 - 海洋專門家 人名錄 -

II. 研究開發의 重要性 및 目的

國內 海洋學界는 현재 研究基礎이 조성되고 研究活動이 점차 활성화 되어 감에 따라 많은 情報資料의 수요가 발생하고 있음에 비해 이에 부응할 情報流通과 補給活動은 매우 미흡한 실정이다. 海洋分野 전반에 걸쳐 광범위한 國內外 자료를 입수하고 있는 본 研究所는 國內 情報流通과 補給面에서 중심역할을 수행해야 할 소명을 안고 있다고 할 수 있는 바, 현시점 까지 체계적으로 정리, 파악되고 있지 못한 國內 海洋關聯 分野의 專門家에 대한 人力 데이터를 확보, 情報資料化 함으로써 關聯 政策 추진 및 研究活動 수행에 효과적으로 활용할 수 있도록 하고자 하는데 본 研究의 目的이 있다.

III. 研究開發의 內容

현재 國內에서 활약하고 있는 海洋關聯 分野의 專門家로서 學界와 研究機關 및 官公署 인사들 중

1. 學界는 碩士學位 이상 소지자 또는 學士學位 취득후 關聯分野

5년 이상의 경력자

2. 研究機關 研究, 技術員 이상

3. 官公署는 研究官 이상으로 하되

자료 입수가 가능했던 430명을 대상으로 하였다.

人力데이터로 정리, 수록한 내용은

1. 姓名 2. 生年月日 3. 専攻分野 4. 現職場名 5. 職場住所 및
電話番号 6. 學歷事項 7. 學會活動事項 8. 著書 9. 主要經歷 등이다.

IV. 研究開發의 結果

本 研究의 結果로 國內 海洋關聯分野에서 활약하고 있는 專門家들에
대한 人力데이터가 취합, 정리됨으로써 향후 海洋關聯 政策이나 海洋開發
사업수행 및 學術, 研究開發 活動에 유용한 참고자료로 활용될 수 있게
되었다.

SUMMARY

I. Title

Marine Scientific Information System - Directory of Marine Scientists in Korea -

II. Objective and Significance

Enormous amount of new information is being created due to rapid scientific and technological progress in ocean-related fields. And thus it is becoming more and more difficult for scientists to obtain and/or select relevant information out of the new materials created. In order to make marine scientific materials readily accessible to potential users, a systematic presentation of such materials is required.

This, however, is not an easy task. This may require continuous effort to cope with the fast scientific progress of today. As a part of this effort, information on marine scientists related experts in Korea was collected and presented as a directory.

III. Scope

This directory contains 430 ocean-related scientists currently working in research institutes, government agencies and universities in Korea.

The biographical listings are presented in the order of Name, Vital Statistics, Areas of Specialty, Affiliation, Address (Office), Telephone, Education, Academic Memberships, Publications, and Experiences.

IV. Results

As a result of this study, a directory of Korean marine scientists is published. This book is expected to serve as a source book for biographical information of Korean marine scientists.
